Rahul Kumar Sharma

QA Lead | Test Strategy | Release Governance | Manual, API and Automation Testing

Noida, India | +91 98993 59780 | rsharma108@hotmail.com | linkedin.com/in/rsharma108

PROFESSIONAL SUMMARY

QA Lead with 9+ years of experience delivering SaaS web and mobile platforms in entertainment ticketing, EdTech and online examinations. Currently leading a 6-member QA team on the PVR INOX movie ticketing platform. Specialist in QA strategy, release governance, risk-based testing and defect leakage control for high-concurrency products, with 99%+ defect-free releases, a 95% reduction in defect leakage and teams of up to 10 engineers led in Agile and Kanban.

SKILLS

Testing: Test Planning and Strategy, Test Case Design, Functional, Regression, Exploratory, API, Database, UI and Usability, Mobile (Android, iOS), Payment Flow Testing, UAT, Risk-Based Testing, RCA, Release Sign-off

Tools: Playwright, Selenium WebDriver (Java), Postman, Swagger, Jira, TestRail, BrowserStack, Apache JMeter, Burp Suite Professional, MongoDB, SQL, Robo 3T, Studio 3T, Figma, Confluence

Leadership and Process: Team Leadership, Mentoring, Defect Triage, Stakeholder Management, Agile, Scrum, Kanban, AI-Assisted Testing (Claude)

PROFESSIONAL EXPERIENCE

QA Lead, Appinventiv — Feb 2026 - Present

Noida | PVR INOX movie ticketing platform: Android, iOS, website and mobile site

- Lead a team of 6 QA engineers; own test strategy, planning, estimation and QA sign-off for milestone releases.
- Validate end-to-end booking: showtimes, seat selection, payments, food and beverage, offers and e-tickets.
- Run Jira defect triage with dev and product teams by severity and release impact; plan regression per milestone.
- Introduced AI-assisted QA with Claude for test case design from requirements, defect reporting and triage.

QA Lead, Ginger Webs — Sep 2025 - Jan 2026

Noida | SaaS web and mobile products

- Led QA strategy across functional, regression, API, database and security testing for high-concurrency platforms.
- Achieved 99%+ defect-free production releases through stronger test planning and pre-release validation.
- Ran pre-release risk assessments, RCA and post-production monitoring; set up QA processes for web and mobile.

Module Lead - QA, Edfora Infotech — Nov 2017 - Sep 2025

Delhi | EdTech and online examination platforms

- Led and mentored 10 QA engineers; owned test planning, execution and release sign-off across EdTech products.
- Cut defect leakage by 95% and critical production issues by 85% through regression planning and preventive QA.
- Improved customer satisfaction by 40% by aligning QA outcomes with end-user expectations.
- Defined automation strategy and regression coverage; data-driven QA reporting sped up release cycles by 10%.
- Doubled as Project Manager for vendor-built products, owning their quality compliance.

Team Lead, iEnergizer — Jun 2015 - May 2017

Noida | Samsung handheld products (HHP)

- Proposed and led a 4-member exploratory testing team on Samsung HHP devices, including premium smartphones.
- Found device defects early and reported them with user-impact findings to Samsung stakeholders.
- Managed 12 Samsung HHP support representatives; acting on user pain points raised customer satisfaction by 15%.

KEY PROJECTS

Think Exam, SaaS online examination platform: led functional, API and security testing for secure, large-scale exams.

Glorifire LMS, Class IX-XII exam-prep platform: owned LMS QA; 99% defect-free release via regression and UAT.

Glorifire Stakeholder, educator platform for teaching, analytics and admin: kept releases stable via regression.

EDUCATION

Master of Business Administration (MBA), Sikkim Manipal University, 2021

Bachelor of Computer Applications (BCA), Sikkim Manipal University, 2014
